Annual Meeting Results in the Forecasted Change—Larger Work in View.

The annual meeting of stockholders of he Ajax Mining company, held in this city yesterday, resulted in an entire

mine, so far as the upper levels are concerned, and as yet really important ore bodies have not been opened at depth. It yet has good prospects, however, and it has deep the contraction of the contractio The fifth carload of ore shipped from the Chief Consolidated company's mine in Tintic brought \$680, according to report just made by Manager Walter Fitch to the company's office in Calumet, Mich.

10 1014 01 14.50 14.50 14.50 15.50 16.5 70 65 05 03 05 13.37½ 1.40 1.37½ 1.40 that the new work outlined will open another large producer for Tintic.

For a "worked-out" mine, the annual report of President Weir of the Ajax company makes a highly creditable showing. During the year production from bodies of copper ore in the mine was kept up pretty regularly, and a great deal of development work was done in the lower levels in quest of the large bodies of lead-silver ore which it is believed that the ground contains. And the year was closed with a cash balance of \$6,500 was closed with a cash balance of \$6,500 in the treasury.

ELY STOCKS ACTIVE ON LOCAL EXCHANGE

Ely stocks, on the open board, were the distinctive feature of trading yesterday on the mining exchange. Ely Consolidated, at 60c bid and 65c asked, was seven cents higher than the price quoted Sat-urday, and when it is considered that the stock only a few weeks ago was offered around five cents a share the interest in it is seen to be amply justified. Federal Ely, with sales recorded of 5,500 shares, Ely. with sales recorded of 5,500 shares, mostly at 16c, showed even greater proportionate gain, and Ely Witch, with sales of 1,575 shares at 36c to 39c, was another favorite. Other sales: McDonald Ely, 1,000 at 21c to 25c; Bingham Central Standard, 433 at 35c; Uintah Treasure Hill, 1,000 at 10c to 10½c. Closing quotations:

Ely Witch Uintah Treasure Hill Bingham Central Standard

SAYS MINERAL FLAT WILL SOON BE SHIPPER

Aside from confirming the reports of handsome ore developments in his Mountain Dell property, which have been coming lately from American Fork canyon, Judge R. N. Baskin brings from camp information indicating that Mineral Flat is nearly ready to join the list of producers. The Mineral Flat company has been developing its property more extensively than has any other concern operating in the canyon, and it is said that it is about to connect its lower workings with an ore body which is likely to make a shipping record that will surprise the a shipping record that will surprise the talent. Several other properties have good showings and there is every reason to be-lieve that next season will be the most active one the district has seen for many

debtedness of the old company and the proceeds from the assessment recently levworking fund.
The mill, with capacity increased to 1,000 and 1,200 tons a day, has already been placed in the best possible condition for effecting a large saving and the ore bodies in the mine have been developed to a

stage assuring steady production for a long time to come. Considerable high-grade ore has been developed with the low-grade, it is said, so that the average of the recovery promises to be relatively high.

The management expects to produce copper at a cost of around 8 cents a pound, showing a profit of better than \$40,000 a month from a production of about 1,000,000 pounds of copper a month.
